

Honor before Victory

(Paragon Keep Fight Song)
Syr Kyppyn Kirkcaldy - AS XL

We honor our brothers, their valor and their deeds.
They battled with their hearts for country and for King.
These past chosen heroes of myth are legendry.
We know that their honor came before victory.

*Chorus: Honor me brothers with might and bravery
We battle in the name of truth, choose our destiny
Go now my brother and prove your chivalry
Fight for your honor, before victory*

I stand at the front line, with death mocking me.
A mirror of wretched souls, my eyes they can see,
An army of choices that make them enemies.
Will they choose their honor before their victory?

Chorus

My shield and sword are steeled against my enemy,
Honor and prowess are the friends who fight with me.
Follow your heart my son and keep your dignity.
Fight to place your honor before your victory.

Chorus

Fight against me brother, my honor like a spear.
My virtue will win the day, my soul will never fear.
Will you honor your fathers down on bended knee?
Ensure that your honor is before your victory.

Chorus

My foe has nearly fallen, he swings for me again.
He and I are weary ; we hope its near the end.
Will our sons and daughters be told about our plea?
To place their own honor before victory.

Chorus:

*Honor me brothers with might and bravery
We battle in the name of truth, choose our destiny
Go now my brother and prove your chivalry
Fight for your honor, before victory*
