Chance's Song

A G A G
It was by Chance I came to fight, I thought my chances good
A G D A
To make a fight, to make a song, in a Darkyard wood
A G A G
I challenged Chance to take a chance, a song to victor pay
A G D A
Sung to Victor's Baroness, upon a sunny day, but...

C G
Chorus: Chance would not befriend me
C G
I had no chance that day
C G
Though I tried to take a chance,
D A
My Chance just slipped away...

Another chance I saw, for Chance, to take a chance to fight
I called on Chance to win the day, and in the Royal sight!
If Chance win, I'll tell you clear, exactly what I mean:
I will sing a song of Chance before the Dragon Queen
(Chorus)

Once again for Chance I sought, come fight, the best of three!
And finally I fought by Chance, beneath the Darkyard tree
First I lost, and then I won, and what more can I say?
When the dust had finally cleared, twas Chance that ruled the day!
(Chorus)
