

Morgath-
(Sir Ivar's Evil Twin)

Chorus: He's headin' for Valhalla for to conquer Odin's Hall
He's mounted Bifrost to the Gate
Thor's back's against the wall
He's big and mean and hairy and
A belted knight as well
Morgath, strikin' back at you-
From the coldest part of Hell

He likes to use his iron swords, too heavy for a man
But where another drops his guard is where Morgath began
He'll hit you while you're waiting for the fighting to begin
Where another's givin' up- that's where Morgath will win!
(Chorus)

Sweet he is to ladies and he will not tell a lie
But if you stand upon his path, you know you gotta die
Freya's wavin' from a tower, Loki's runnin' fast
Cause Morgath's comin' to the hall-and the Aesir cannot last!
(Chorus)
